Donato™

Safe Blood for the World

REMBB06110

HLL Lifecare Limited
(A Government of India Enterprise)

A Mini Ratna* Public Sector Enterprise, HLL Lifecare Limited is today a multi-product, multi-location, diversified organization with a global presence. HLL's activities range from manufacture and export of contraceptives and healthcare products to developing Medicare infrastructure and implementing several socially relevant initiatives.

HLL products are today exported to over 115 countries around the globe. HLL's logo with a touch of pink reflects its renewed spirit of discovery, enterprise and caring (the pillars represent values, with the three wings representing the three fundamentals of HLL –Innovation, Excellence and Healthcare delivery). HLL is making rapid forays into the world stage through technical collaborations, marketing alliances and joint ventures.

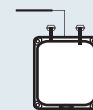

HLL has received the Prime Minister's Award for being amongst the 10 best Public Sector Enterprise in India. With more than 2000 highly skilled, qualified manpower and several world leaders as partners, the focus of HLL will be to realize its motto of "innovation for healthy generations".

We invite you to join in our quest of meeting the future challenges, to share our new vision and dream, to usher in a world of good health and happiness.

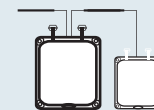

*Mini Ratna status grants enhanced delegation of Powers, along with financial and operational autonomy to Government of India Enterprises.

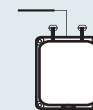

RANGE : Donato Blood Bag Systems

Size - 350/450ml
Transfer Bag Size - 100ml
Anticoagulant - CPDA/CPDA1/CPD-SAGM

* Any other size/configuration can be obtained on request * Anticoagulant CPDA1 is also available

Committed to Quality

Stringent quality control measures are adhered to at every stage in the manufacturing process of Donato Blood Bags. Biological tests for sterility and pyrogenicity, tests for needle sharpness, resistance to leakage and thermal stability ensures the reliability, safety and consistency in the quality of these blood bags.

The various certifications obtained by the company bear ample testimony to its commitment to quality.

Superior needle sharpness offered by the 16 G ultra thin walled double bevel needle design, minimizes donor trauma & pain during vein puncture

Recappable needle assembly provides end users with complete protection from needle stick injuries

Frosted and memory less tubing prevents sticking and ensures better sealing

The bag contours are rounded to ensure smooth flow of blood components during separation and transfusion

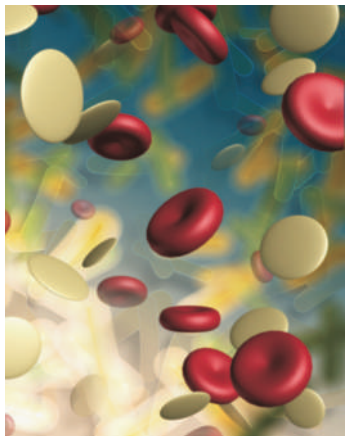

Pinch clamps to stop blood flow

Inline sampling system with leur adaptor offers convenient & contamination free sampling

Easily openable tamper evident transfusion port cover enables ease in handling and confirms sterility

Tamper evident labels

PLATELET BAGS

Donato platelet storage bags offer high gas permeability and allow maintaining an optimum pH balance during storage. Test results conducted at independent research laboratory reveal that Donato blood bags give platelet viability up to five days storage.

HLL Lifecare Limited with over one & half decades of rich experience in manufacturing blood storage devices introduces its new range of blood collection bags based on emerging customer needs.

DonatoTM
Safe Blood for the World

TOP & BOTTOM BAG

Donato Top and Bottom Blood collection bag provides greater efficacy to the separation of blood components after centrifugation process. These bags are compatible with all commercially available automatic extractors and incorporates additional features such as inline sampling port with leur adaptor and needle protector for improved safety and flexibility.

DonatoTM
Safe Blood for the World

Donato Blood bags are specially designed to meet exacting physical, chemical & Biological requirements for safe handling and storage of Blood and Blood components. Donato blood bags are manufactured in class 10000 clean room facilities with minimal human handling
