

About HLL

HLL Lifecare Limited, a Government of India Enterprise under the Ministry of Health and Family Welfare, aims at providing high quality products/services at affordable prices that touches millions of people across the globe. It is inspired by the challenges of public health issues around the country and develops products/solutions of the need. Today, it has seven state-of-the-art manufacturing plants in India. HLL is the largest manufacturer of condoms in Asia with a capacity of nearly 2000 million pieces per year.

Since inception, HLL has been constantly innovating to create novel products with the help of technology so that the benefits of modern healthcare can transform the lives of the common man. HLL lives up to its vision of 'Innovation for healthy generations'. Every product and solution of HLL is created through constant research and development that aims at making world class healthcare affordable and available to the society at large.

As the company successfully completes 55 years, HLL offers various products/solutions in several categories including feminine hygiene, contraception, women healthcare, wound care and consumer products. Now it is scaling new heights with greater responsibilities of having a network of affordable pharmacies across the nation, healthcare services outlets, vaccine security of the nation and medical devices park.

VENDING BUSINESS DIVISION

A decade ago, Ministry of Health and Family Welfare (MoHFW) emphasised on Menstrual Hygiene and initiated supply of sanitary napkins. HLL partnered with Ministry in this project and supplied sanitary napkins across India. HLL envisaged that reaching sanitary napkins at the arm's length will help in improving the menstrual health of Indian women. Thus Vending Business Division was started in the year 2014, understanding the need for distribution of sanitary napkins Vending Machines under the brand of "VENDIGO".

HLL, offers comprehensive solutions in the feminine hygiene category to bring about behavioural change among Indian women. It has a complete portfolio of products for Menstrual Hygiene Management (MHM) which includes a robust automatic sanitary napkin Vending Machine, high-quality affordable Sanitary Napkins, Incinerators to dispose sanitary napkins/diapers in an environmental friendly way and Menstrual Hygiene Awareness program. New products like Menstrual cup (M-cup), Home Incinerators, Mini Incinerators, Community Incinerators are added recently. The division also has Automatic Sanitizer Vending Machine, Mask Vending Machine, UV Sanitizing box, Foot-operated sanitizer dispenser, Hand Sanitizer to fight against COVID.

HIGHLIGHTS

- ▶ Network of nearly 35,000 machines
 - ▶ Pan-India Operations & Service network
 - ▶ Largest supplier to Government & CSR programs
 - ▶ Recommended and nominated by Central/State Government Departments
 - ▶ Customized program design for training and awareness campaign
 - ▶ Developed innovative sustainable business solutions for NGOs and SHGs
 - ▶ Pollution Control Board approval for Incinerators
-

Menstrual Hygiene is one of the significant component in **Sustainable Development Goals (SDGs) – 2030 of UN** which is encompassed in 6 of 17 Interlinked goals. HLL Vending Business Division offers solutions to reach these goals.

- **Goal : 4 on Quality Education** is to be supported by 'Eliminating gender disparities in education', 'all learners acquire the knowledge and skills needed to promote human rights, gender equality'
- **Goal : 5 on Gender Equality** is to be supported by 'Ending all forms of discrimination against all women and girls. Ensure women's full and effective participation in public life'
- **Goal : 6 – Clean water and Sanitation** is to be supported by 'Providing access to adequate / equitable sanitation and hygiene for all'
- **Goal : 8 – Decent work and Environmental growth** is to be supported by 'Promoting safe and secure working environments for all workers, including migrant workers, in particular women migrants'
- **Goal : 12 – Responsible production and consumption** is to be supported by 'Reduce waste generation and support developing countries to strengthen their capacity to move towards more sustainable patterns of consumption and production'

VENDIGO VENDING MACHINES

VENDIGO provides an alternative distribution model for sanitary napkin at schools, colleges, offices, public toilets, railway stations, airports, bus stations etc. Through VENDIGO, sanitary napkins are made available in the respective locations with uninterrupted supply. We have vending machines which are capable of dispensing any pack size/variant of sanitary napkins. HLL vending machines have one year warranty and two year maintenance at additional cost.

FEATURES

- ▶ The standard machine works on globally proven spiral coil mechanism
- ▶ Fully electronic model with display (LCD) for interactive communication with the users
- ▶ Electronic coin acceptor, which accepts different variants of Indian coins and has the facility for multiple insertion
- ▶ Easy data (product dispensed and coins collected) retrieval electronically through USB port which eliminates manual errors in data collection and quick data transfer to the backend system and quick report generation
- ▶ Two selection machine which can be customized for any product such as sanitary napkins, condoms, etc
- ▶ Machines are compatible to GSM port and RFID. These features help in easy interaction with the machine on dispensing of sanitary pads and stocks monitoring
- ▶ Available in Standard and Mini model

Standard Vending Machine

- The size of the machine is 600 mm width, 150 mm depth, 650 mm height
- Consumes 230V /50 Hz / 5 Amp
- All motors and boards operate on DC

VENDIGO INCINERATORS

VENDIGO Incinerator disposes napkins in an environment-friendly way. The incinerator burns the soiled pads completely by removing all infectious components and leaves a residue of sterile non-reactive ash. This method eliminates all the long term environmental impacts of other disposal means such as dumping into urban sewage systems, landfills, rural fields and water bodies.

HLL offers four different types of incinerator depending on the requirement of the user-Standard Incinerator, Home Incinerator, Mini Incinerator and Community Incinerator. HLL incinerators have one year warranty and two year maintenance at additional cost.

FEATURES

- ▶ Wall mountable with user friendly features
- ▶ Operates on electricity
- ▶ Burns napkins completely, producing less than 1 gm of ash per napkin
- ▶ The ash is collected in a tray for easy cleaning
- ▶ Automatic temperature maintenance and ceramic insulation for excellent thermal protection
- ▶ Auto power off and thermal cut-off for user safety
- ▶ Stainless steel covering inside and Epoxy powder coating outside, ensures a maximum lifetime of the machine functioning and appearance
- ▶ Available with smoke control unit

Standard Incinerator

- Can burn upto 200 pads per day at 15-20 pads/ cycle
- The size of the machine is 270 mm width, 250 mm depth, 600 mm height
- Consumes 220V voltage, wattage 1250 V

HAPPY DAYS SANITARY NAPKINS

Happy Days sanitary napkins are manufactured in HLL's state of the art manufacturing facility in Kanagala, Belgaum.
